SCHWARZE A7000

SPECIFICATIONS

Model shown with optional equipmen	t. Design and specifications subj
Sweening Dath	
Sweeping Path	
Pickup Head Only Pickup Head and one	90" (2,286mm)
gutter broom Pickup Head and	117" (2,972mm)
two gutter brooms	144" (3,658mm)
Chassis	
Mounts on various chassis to meet requirements	
Sweeper Body	
Construction	Welded 10-gauge steel plate with 3/16 steel hopper floor
Safety Prop	Dual steel bars located under body
Instrumentation	
Sweeper Engine	Tachometer, hourmeter, voltmeter, temperature gauge, oil pressure gauge
Standard Engine	
Model / Type	Tier III 4045T In line cylinder
Aspiration	Turbo-charged diesel
Manufacturer	John Deere
Displacement	275 cu. in. (4.5L)
Brake Horsepower	115HP (86KW) @ 2400 RPM
Torque	317ft-lb (430Nm) @1500RPM
Air Cleaner	Sy Klone centrifugal precleaner; dry type with dual safety elements and restriction indicator
Oil Filter	Full-flow / Spin on
Stroke	5.00" (127mm)
Bore	4.20" (106mm)
Compression Ratio	19.0 to 1
Safety Shutdown	Three-point automatic
Thurstella Cambusi	Electronic

Electrical System	
Voltage	12 Volt
Sweeper Engine Alternator	65 Amperes
Dust Control System	
Туре	High Pressure /
	Low volume
Capacity	250 Gallon (946 L)
•	(600 gallon on
	cab-over chassis)
Tank Construction	Polyethylene
Filter	200 mesh, cleanable
Fill Diameter	2.5" (63.5mm)
Fill Hose	25 foot (7620mm)
Controls	Electric; in-cab
Nozzles	2 on each broom
	5 around suction
	head
	2 inside suction nozzle
	2 on front axle
	2 inside hopper
Blower System	
Туре	Closed-face radial
Drive	Direct via 5 groove,
	banded power belt
Construction	Hardox Steel
Balance	1.5 grams on 2 sides
Diameter	32.75" (832mm)
Housing Lining	Bolt-in corded rubbe
Mounting	2 regreaseable sealed bearings
Vacuum Enhancer	For heavy / light

Pickup Head

Туре	Dual chambered full-width blast orifice
Operating Direction Suspension	Forward and reverse Adjustable spring
·	balanced
Length	90" (2,286mm)
Pressure Hose Diameter	14" (355.6mm)
Suction Hose Diameter	14" (355.6mm)
Hose Construction	3/8" (9.5mm)
	wire-reinforced
	molded rubber
Head Area	3,240 sq. in.
	(20,903cm2)

Pickup Head cont.

Controls	Hydraulic raise
	and lower
Skids	Double wide
	tungsten carbide
Construction	Abrasion-resistant
	steel inlet and outlet
	transitions

Paint

One coat of sealer / primer and two coats of Dupont Imron 5000 polyurethane in standard white color

Optional Equipment

Patented* Mechani-Pneumatic PowerhoodSM (Broom Assist Head) Single or Dual Gutter Brooms In-Cab Tilt Control for Gutter Brooms Gutter Broom Extension OverrideSM (GEOSM) System Single or Twin Remote Cameras with In-Cab Video Monitor **Dual Steering** Sound Suppression System Cab-Mounted Barlight Beacon Safety Beacon with Limb Guard Spray Bar for Front Bumper, Hopper Hopper DelugeSM (Hopper Washdown System) Extra 220-or 350-Gallon Polyethylene Water Tank (Cabover only) Hopper Drain System 8" Auxiliary Hand Hose 4 Point ProtectionSM (Stainless Steel Hopper Package) Magnet Bar Spare Tire and Wheel Special Paint for Sweeper and Chassis Hydraulic or Spring System for Hand Hose Other Options Available

Warranty

The A7000 regenerative air sweeper is guaranteed to be free from defects due to faulty materials and / or workmanship for a period of 12 months, or 1200 hours. Liability is limited to replacement of defective parts at factory or authorized dealer. The standard warranties of the chassis and sweeper engine manufacturer shall apply.

NOTE: Specifications are subject to change without notice

SCHWARZE A7000

Regenerative Air Sweeper Exceptional Durability

Powerful

SCHWARZE INDUSTRIES A7000 SWEEPER

than any other manufacturer in America.

concept to produce, maintain and market the finest power sweeping

and we offer a broad line, with more sweeper models to choose from

Versatile **Exceptional Durability** Powerful

> The Schwarze model A7000 is a heavy duty, chassis-mounted, regenerative air sweeper with an 8.4 cubic yard hopper. Its basic design has had over 20 years of successful operation throughout the United States and around the world. As one of the largest, most powerful air sweepers in existence, the Schwarze A7000 is an ideal choice for use in a wide range of demanding municipal and contractor sweeping applications.

The A7000 blower system generates a high velocity air column over 17,000 CFM that is propelled into the top of the sweeping head through a 14-inch blast tube. The air is first pressurized in the upper chamber of the sweeping head and then

expelled into the head's lower chamber through the blast orifice. This high volume air blast loosens the debris from the pavement surface, then transports it across the width of the sweeping head and lifts it into the containment hopper via a 14-inch suction tube. This highly efficient system ensures that even hard-to reach particles hidden within pavement cracks and irregularities are removed. This includes a significant amount of the 'PM-10 fines' known to contain a high percentage of heavy metals and other pollutants. That's why the A7000 has been certified as 'Rule 1186 Compliant' by the South Coast Air Quality Management District, one of southern California's leading state environmental agencies.

To assure debris transfer with minimal fugitive dust escapement, double-belted curtains on the front and rear of the sweeping head contain the circulating air flow. This prevents dirty, debris-laden air from entering into the atmosphere as fugitive dust particles. The Schwarze A7000 picks up more of the micron-sized contaminates that accumulate on roads and streets. Recent studies emphasize the importance of removing these PM-10 'fines' due to the amount of non-point source pollutants that contribute to America's stormwater runoff stream. Using the regenerative air Schwarze A7000 sweeper results in a cleaner surface and a cleaner environment.

The model A7000 has several industryleading features that position it at the head of its class. These include Schwarze's WhisperWheelSM fan system, which lets Schwarze air sweepers run over 70% guieter and with less fuel consumption. The A7000 is also available with the patented Mechani-Pneumatic Broom Assist Sweeping HeadSM and Schwarze Sweeps-In-ReverseSM, allowing operation in both forward and reverse directions.

Debris Hopper

Standard Equipment

Schwarze-Exclusive WhisperWheel[™] Fan System Noise Reduction Shroud Sweeps-In-ReverseSM Sweeping System DC Auxiliary Hydraulic Pump

Hopper-Mounted Amber Strobe Light with Limb Guard High Level Brake Light
